

Furniture Care and Maintenance

In order to maintain the quality of our products, we highly recommend the following to keep our products look clean and new for years:

1. Mr. Clean Magic Eraser¹
2. 303® Patio Furniture Cleaner² which is specifically designed to clean resin and plastic furniture.
3. 303® Patio Furniture Protectant² which is the world's most powerful UV screening product.
4. Soapy water and Sponge
5. 303® Patio Fabric Guard strengthens and restores water repellency and keeps fabrics soft and breathable. Great for our Sunbrella® Quick Ship Fabrics.
6. Earth Scrub
16 oz bottle - *Measure carefully*
 - Mix 1 2/3 cups baking soda with ½ cup of liquid soap* in a bowl
 - Add 2 tbsp vinegar last
 - Stir until the lumps are gone
 - If you can pour it into the container easily, then you have the right consistency
 - If it's too thick, add more water
 - Shake well before using

***What to avoid: Using a pressure washer at high intensity.** When the nozzle is placed too close to the plastic it could chew/fray the plastic leaving a fuzzy look to the plastic and allowing atmospheric dirt and particles to get inside the plastic. Over time the furniture looks dirty and will never clean to its original look.
